Head and Neck Anatomy 2023-24

1. **Length time candidates have for the paper.**

   HNAC (2nd MB component) = 45 minutes; HNA3 (Tripos only) = 45 minutes

2. **How many questions the paper has, and how many should be answered.**

   HNAC = 45 questions (divided into 15 "Stations" with 3 questions/Station, with images at alternate "Stations", all questions should be answered; HNA3 = choice of 3 out of 6 short answer questions

3. **The type of questions asked (MCQ/short answer/essay).**
   HNAC = MCQs (single best answer); HNA3 = short answer questions, candidates recommended to spend 15 minutes on each of 3 questions

4. **How many marks each question is worth.**
   HNAC = 1 mark each, total is 45, but calculated out of 30 for final score; HNA3 = marked out of 10 for each of 3 questions, out of 30 for total score

5. **If there are different sections, how many there are and the labels they have, how many questions there are for each section and how many questions must be attempted from each.**
   See above, already answered.

6. **The weighting of the paper for both 2nd MB/Vet MB and Tripos, for that subject.**

   See above, already answered. Scaling has to be done to achieve a suitable distribution for the Tripos. In the year 22/23, HNAC was scaled down and HNA3 was scaled up.

7. **Any other relevant details.**

   Online, invigilated on Inspera.

All this information is available with samples from past papers etc. on the HNA Moodle site, to which supervisors and DoSes may have access.
